Dao Duc Thinh

Full-stack Developer

Ho Chi Minh City, Vietnam +84 975 647 951 daothinh1105@gmail.com
linkedin.com/in/thinh-dao-73622317a

PROFESSIONAL SUMMARY

Full-stack Developer with over 4 years of experience in architecting and delivering scalable web and mobile applications. Expertise in .NET 8, React, and TypeScript, with a deep understanding of Clean Architecture, SOLID principles, and system design. Proven track record of optimizing performance and deploying robust containerized solutions on AWS.

TECHNICAL SKILLS

Architecture: Clean Architecture, CQRS, Repository Pattern, SOLID, DDD

Backend: .NET 8/Core, Node.js (NestJS), RESTful APIs, GraphQL, SignalR (WebSocket)

Frontend: React, Next.js, Angular, Vue.js, Ionic, Tailwind CSS, Redux/Zustand

Databases: PostgreSQL, SQL Server, MySQL, Redis, MongoDB

Cloud & DevOps: AWS (EC2, S3, CloudFront), Docker, Nginx, GitHub Actions, Linux

AI & Automation: GitHub Copilot, ChatGPT API Integration, Prompt Engineering

Languages: English (Professional Working Proficiency), C#, TypeScript, JavaScript, Python

PROFESSIONAL EXPERIENCE

HONGTHAI Technical Oct 2024 – Present

Full-stack Developer

Stack: React, Ionic, C#/.NET, Ruby, Vue.js, GraphQL, Python, Docker, AWS

- **Ratemate:** Developed hybrid mobile/web applications and admin systems using React, Ionic, and .NET with modular architecture, reusable components, offline support, and JWT/RBAC authentication.
- **WayJet:** Built scalable mobile/web platforms with lazy loading, virtualization, optimized rendering, and performance tuning to improve user experience and application responsiveness.
- **WiseChat:** Implemented real-time chat systems using Ruby, Vue.js, and WebSocket with typing indicators, read receipts, attachments, search, and infinite scrolling.
- **Python Content Crawler:** Created automated scraping pipelines using Scrapy, Requests, and BeautifulSoup with scheduling, de-duplication, proxy rotation, and SEO data exporting workflows.
- **WordPress GraphQL Admin:** Developed React/Vue dashboards integrated with WPGraphQL and optimized API performance through caching, batching, and pagination strategies.
- **DevOps & Deployment:** Managed Docker-based deployment pipelines, Nginx configuration, CI/CD workflows, and AWS EC2 production releases.

FPT Software Oct 2023 – Oct 2024

Full-stack Developer

Stack: React, Angular, Node.js, C#/.NET, Docker, AWS

- **OLSP SIA:** Developed reusable React components and integrated Node.js APIs for Singapore Airlines' Online Sales Platform while improving UI maintainability and testing quality.
- **KrisFlyer Scoot:** Built Angular modules integrated with .NET backend services and optimized front-end performance for customer-facing airline systems.
- Participated in deployment support, bug fixing, performance optimization, and release workflows across enterprise projects.

BeanHop May 2023 – Oct 2023

Front-end Developer

Stack: React, TypeScript, Tailwind CSS

- Developed responsive interfaces for a coffee trading platform using React and TypeScript.
- Improved accessibility, responsive behavior, and cross-browser compatibility across multiple devices.
- Collaborated with team members to support releases, fix defects, and streamline user flows.

FPT Software Sep 2022 – May 2023
IT Support / Front-end Transition

- Provided L1/L2 support for ServiceNow ITSM systems including incident handling, issue analysis, and operational support.
- Assisted with configuration updates including business rules, client scripts, forms, and validation workflows.
- Developed ReactJS mini-features and internal tools while transitioning into a Front-end Developer role.

Part-time Freelance Full-stack Developer May 2024 – May 2025
Clients: Thomi, SolMedia, Green Sky Architecture
Stack: Next.js, NestJS, React Native, PostgreSQL, MongoDB, WebSocket, Docker, CI/CD, Python

- **Vinfire & Nexa:** Architected RBAC systems, audit logging, operational dashboards, and secure workflow management solutions for public-sector police departments.
- **Logistics & Delivery Platforms:** Developed cross-platform delivery applications with real-time synchronization, notifications, route tracking, proof-of-delivery, and offline support.
- **AIColors:** Built web/mobile systems for product browsing, dealer management, CMS integration, and color workflow management.
- **Architecture & Media Platforms:** Delivered full-stack features including API development, database modeling, CMS integration, and responsive UI implementation.
- Improved system scalability and reliability through query optimization, caching strategies, deployment automation, and performance monitoring.

EDUCATION

FPT University HCMC 2019 – 2023
Software Engineering

- Status: Graduated
- GPA: 7.2

CERTIFICATE

- Google Project Management (2023)
- IBM Front-End Developer Professional Certificate (2023)
- User Experience Research and Design (2023)
- Software Development Lifecycle (2022)
